Public life

42nd US president and husband to Hillary Clinton, and sex addict.[]

Role at #Pizzagate

Key player in covering up of elite pedophilia.[] There are many pieces of evidence that connect him to Pizza Gate including his closeness with the [Clinton Foundation](#) and suspicious activities with friend [Jeffrey Epstein](#).

Relation with #Pizzagate

Close relationship with the Clinton Foundation. Bill is known for his suspicious relationship and activities with level 3 sex offender, [Jeffrey Epstein](#). Bill has flown on Epstein's infamous "Lolita Express" on 26 different occasions[1] and barred the secret service from flying with him many of those times. Epstein has been investigated, and even served time in a county jail. The charge was for soliciting a minor in Palm Beach at his mansion there, and the related plea bargain provided to Epstein displays many signs of illegality.[2] Although many more victims came forward after his criminal trial, no further criminal trials have ever been brought related to Epstein's activities on his plane, the Lolita Express, or his private island, [Little St James](#). This island has been visited frequently by the world's elite, many of which can be tied to the Pizzagate investigation. It is believed that some or all of the minors involved in the sex crimes aboard Epstein's plane and island are victims of sex trafficking. More to come on [Ghislaine Maxwell](#).

[Jeffrey Epstein's "Little Black Book"](#)
